

hot PLUS

Featuring BRITA Filtration

PREMIER HOT PLUS EXTRA

Hot water for high demand usage

The Premier Hot Plus Extra is ideal for kitchen and counter top locations. With its high volume storage chamber it is ideal for locations with heavy surges in demand.

Featuring many outstanding benefits this attractive and compact model enhances the workplace and delivers a consistent flow of hot quality water at the touch of a button.

Peace of mind is assured with Brita filtration which reduces limescale, hardness and impurities including chlorine, metals and organic pollutants, significantly improving beverage quality.
